IN CENTER STUDY PHASES

1

Review

Start your learning with subject-based review using the guided study plan provided by your advisor (books, assessments and video exercises). Attend weekly group seminars and meet with your advisor to check progress.

2

Remediate

Integrate the subjects as they are tested on the exam during your **Live Lecture** program. Re-view foundational content as needed to cover any gaps in knowledge.

3

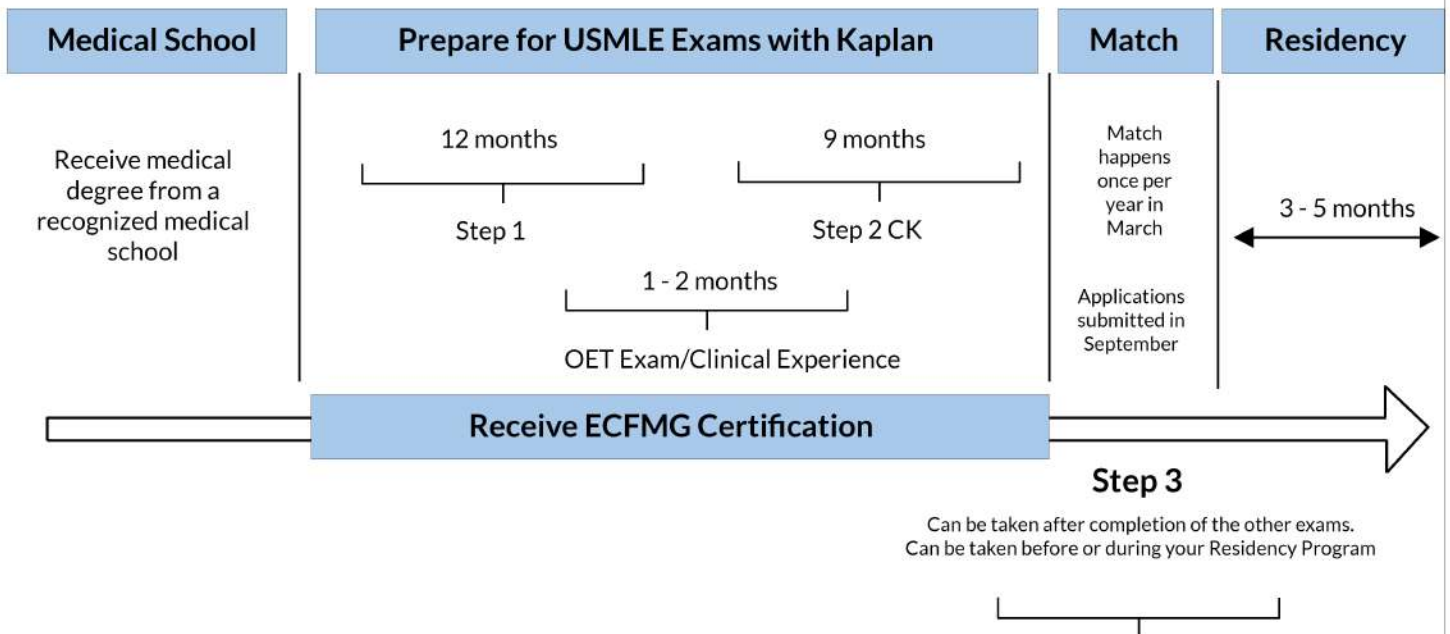

Practice

Use Kaplan's question bank and take full length assessment exams for realistic practice to be best prepared for exam day!

What are the Live Lectures?

The Live Lectures are a component of your In Center program. This is an intense high-yield review of the most heavily tested topics and concepts on USMLE with our world renowned faculty. Because your Live classes are integrating key concepts together, students should have prepared for a **minimum 3 months** to ensure they have the foundational level of knowledge needed for best outcomes.

SELECTING YOUR START DATE

PROGRAM OPTIONS

Step 1 In Center with Live - 12 Months
Step 2 CK In Center with Live - 9 months

5 STEPS

- Step 1.** Select your Center Start Date
- Step 2.** Plan your Live Lectures
- Step 3.** Finalize documents for your I-20
- Step 4.** Apply for Visa
- Step 5.** Arrive in New York and Begin your Program!

DON'T FORGET...

- Students should plan their Live Lectures towards the **middle/second half** of their program for best outcomes.
- Students who come on an F-1 visa are allowed to enter the U.S. up to 30 days before the start date listed on their I20.
- F-1 students should allow enough time to enroll in their course, provide the necessary documents, have their visa appointment and arrive in the U.S. F-1 students should aim to have their visa appointment at least **2-3 months** before their scheduled start date.

WEEKLY WORKSHOPS TO MAXIMIZE YOUR SUCCESS

With Kaplan's weekly structured seminars, you'll be regularly interacting with students and advisors while preparing for residency.

CRITICAL THINKING SESSIONS

Weekly, 2-hour, team-based sessions that focus on problem-solving and critical thinking.

Autoimmune Disease	Coagulation Disorders	Anemia
Lower GI Disorder	Glomerular Diseases	Valvular Heart Diseases
Vasculitides, Cardiomyopathy	Meningitis	Congenital Heart Disorders
Stroke	Arrhythmia, Leukemia & Lymphoma	Psychotic & Substance Abuse Disorders
Adrenal Disorders	Obstructive & Restrictive Lung Diseases}	
Arthritis	Diabetes Mellitus	

Sessions are divided into a pre-clinical (for those preparing for Step 1) and a clinical emphasis (for those preparing for Step 2 CK or Step 3).

For more information, visit KaplanMedical.com/criticalthinkingsessions

WEEKLY ADVANCEMENT WORKSHOPS

Achieve the best USMLE score possible with weekly, 1-hour discussion-based sessions for all In-Center students.

Session Structure

Introductions

New students introduce themselves.

Check-In

Each student shares a challenge or success they've experienced since the last session.

Didactic

Facilitator gives a short overview of the week's topic. Suggested time limits are provided as they vary based on topic and phase.

Challenge Questions & Cases

One student reads the first challenge question or case aloud. The group engages in a discussion to present multiple solutions.

Wrap-up

Students summarize 2 to 3 key takeaways from the session.

Sample Monthly Topics*

January Assessing your goals and values.	February Math and statistics fundamentals.	March What you need to know about LORs.	April Cultural competence.
May Drafting a personal statement.	June Critiquing a personal statement.	July Selecting specialities.	August How to prepare for your interview.
September How to deal with red flags.	October The challenging patient encounter.	November Presentation skills.	December Alternative practices for stress reduction.
